FOOD TECHNOLOGY · STAGE 5

Food for Specific Needs

Planned versus actual delivery ledger

Use	Teacher planning, adjustment and evidence record
Course	Year 9 Term 2 — cohort conflict remains Teacher to confirm
Candidate	Local course build, 19 August 2026
Privacy	Do not record student medical details in this ledger

How to use this ledger

Record actual minutes and the next concrete adjustment after each lesson or week. Keep individual medical details in approved school systems, not in this document. The planned sequence assumes a 10-week unit and can be split across local timetables.

Ten-week record

Wk	Focus	Plan min	Planned learning	Routes	Evidence target	Actual min	What changed	Next gate
1	Launch specific needs	180	Circumstance sorter; source boundary; brief	M1 S1	Saved activity + written response			Confirm Year 9 cohort and supplied circumstance cards
2	Food-choice factors and meal planning	180	Choice-factor matrix; one-day plan	M1 S2–S3	Matrix + meal-plan rationale			Confirm device access and local saving routine
3	Culture, belief and taboos	180	Stereotype rewrite; ingredient/process audit	M2 S1–S2	Respectful claim + audit			Use local authority for any local Aboriginal content
4	Evidence and lifecycle change	180	Source ladder; lifecycle map	M2 S3; M3 S1	Source evaluation + stage response			Teacher selects authorised sources
5	Adolescent and lifecycle meal design	180	School-day pattern; design criteria	M3 S2–S3	Meal concept + criteria			No personal diagnosis, body comparison or supplement advice

6	Allergy and intolerance	180	Classification; verified-management boundary	M4 S1	Scenario decisions			Apply school emergency and individual-plan procedures
7	Labels and cross-contact	180	Mock label and workflow audit; practical planning	M4 S2–S3	Control pathway			Teacher confirms practical, labels and controls
8	Modified and fortified foods	180	Claim-versus-evidence product comparison	M5 S1	Product evaluation			Use current Australian labels
9	Fibre and support networks	180	Fibre pattern; support map	M5 S2–S3	Pattern improvement + network evaluation			Use population guidance only
10	Folio synthesis and practical evidence	180	Evaluate against criteria; improvement; backup/export	Folio and course review	Completed folio export			Current formal notification not yet added

Practical readiness log

Check	Week/date	Confirmed by	Notes / action
Recipe selected from supplied set			
Current ingredient labels checked			
Individual management information available where required			
Local allergen and cross-contact controls confirmed			

Equipment and workflow available			
Emergency and stop procedures understood			

Evidence and adjustment summary

Evidence source	What students could do	Barrier observed	Adjustment for next cycle
Knowledge checks			
Applied activities			
Folio stages			
Practical observations			
Assessment evidence			

End-of-unit review

Which source or authority boundary did students apply confidently?

Which concept needs reteaching before the next practical?

Did the saving, backup and print routines preserve student evidence?

What must be updated before the course is reused?

Which Teacher to confirm item remains unresolved?
